

CODIFICATION CLAUSE “B”

In order to ensure the codification process of products that are specified in this codification clause and are subject to codification according to the principles of the NATO Codification System and the Unified Codification System, **the Seller undertakes to:**

1. Immediately after concluding the contract, notify the Codification Department about this act via e-mail katalogizace@mo.gov.cz, stating the contract number or, if applicable, a copy of the contract in PDF format.

Based on verification of the contact email address specified in the contract, the Authority will send the login details to the incoming email.

2. At their own expense, ensure the processing of the draft codification data for the products listed in this codification clause, always via the application at <https://katalog.mo.gov.cz>. The draft codification data for the product must be processed by a Czech codification agency pursuant to Section 11 of Act No. 309/2000 Coll.

List of relevant codification agencies: <https://okm.mo.gov.cz/en/agencies/list-agencies>.

3. Provide as part of the codification data proposal:

a) a photograph realistically depicting the product in the form of an electronic file in JPG format, resolution up to 1024x768 pixels;

b) a hyperlink to a website or electronic file containing technical data about the product and the manufacturer. The electronic file must be in JPG format, resolution up to 1024x768 pixels, or in PDF format, in A4 page dimensions. If a hyperlink or electronic file cannot be provided, prove the accuracy of the data necessary for descriptive identification in another way.

4. The Seller hereby agrees to the use of the supplied photo documentation for the purposes of the NATO Codification System and the Unified Codification System.
